It integrates and automates the analysis of dispatch Computer Aided Dispatch (CAD), patient care records(ePCR), and incident data to trigger alerts, monitor performance, and map trends.	Since this system was implemented, there have been inflationary costs that were not implemented into the original purchase order to sustain operations of this software integration. These costs were overlooked in the original review of the quotes, though clearly explained in the quote from the vendor. To remedy this, we would request a mechanism to address operation of the FirstWatch program until the end of the 2026 calendar year.
